Orca (Killer Whale) Sightings Around THE WORLD

Hosted by Orca Research Trust, (Founder: Dr. Ingrid N. Visser)
P.O. Box 402043, Tutukaka, 0153, New Zealand

This non-profit study aims to match sightings of recognisable orca (*Orcinus orca*) (also known as killer whales) between locations and between years to learn more about the population size, natural history and habitat needs of these animals.

We would be most grateful for any contributions to the catalogue & require sighting information as well as sharp photographs or video that clearly show
dorsal fin, saddle patches and / or eye patches *

If you have a contribution, please request a copy of this form and fill out the information below.
(leaving the original will allow others the chance to contribute)
Thank you in advance for your assistance.

Date whales were seen: ____ / _____ / ____. Time: _____ am/pm
day month year

General Location (e.g. Roberton Island, Bay of Islands or Kaikoura)

_____

Boat's Name & precise location, if known (e.g., G.P.S. Latitude and Longitude)

_____
